

## Overview

We specialise in the design and manufacture of bespoke; IWOCS, production control systems and subsea assemblies. We also offer a comprehensive range of services to support these assets in the field.

Shipping baskets can be designed to meet any client requirements. Dimensions of the unit will take account of sheave specifications and also the bend radius of the required deck jumper.

## Features

- Dimensions to client requirements
- Drainage points
- Access ladder
- Custom finish (paint or galvanised)
- Fittings for securing components to the floor
- Provision for storing / securing sheaves vertically
- Protection cover

## Added Value Services

- Load testing to standard DNV GL-ST-0387
- Transportation Service

## Manufacturing Process

- All manufacturing processes are accredited by Lloyds ISO 9001:2015 / OSHAS 18001:2007
- All stages of fabrication and assembly can be carried out on site thereby ensuring full control of quality and production processes
- Sheave dimensions will fully comply with client brief
- Production welding can comply with any specific quality or industry standards

## Certificate of Compliance

- CE compliant (including ATEX and machinery directives)
- Certified to DNV GL-ST-E273 /E271
